**NEXT STEP 2014**

**YEAR 12 DESTINATIONS**

Kuranda District State College

**Introduction**

This page presents a summary of results of the annual Next Step survey for Kuranda District State College. The Next Step survey, undertaken by the Queensland Government, targets all students who completed Year 12 and gained a Senior Statement in 2013, whether they attended a government, Catholic or independent school, or a TAFE secondary college. The Queensland Government Statistician’s Office conducted the survey between March and June 2014, approximately six months after the young people left school. Responses were collected via computer-assisted telephone interviewing and an online survey.

**Response rate for Kuranda District State College**

Table 1 below reports the response rate for Kuranda District State College. It expresses the number of respondents from this school, as a percentage of all Year 12 completers who attended Kuranda District State College in 2013.

It has not been possible to ascertain how representative these responses are of all Year 12 completers from this school.

**Definitions of main destinations**

The pathways of Year 12 completers were categorised into ten main destinations. Year 12 completers who were both studying and working were reported as studying for their main destination. A table defining these categories can be found in the statewide report at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep).

**Summary of findings**

In 2014, six young people who completed Year 12 at Kuranda District State College in 2013 continued in some recognised form of education and training in the year after they left school.

The most common study destination was Bachelor Degree (four respondents). The combined VET study destinations accounted for two respondents, all of which were in campus-based VET programs, with one Year 12 completer entering programs at Certificate IV level or higher.

In addition to the above study destinations, a further two respondents from this school deferred a tertiary offer in 2014 (deferrers are shown in Figure 1 in their current destination).

Five respondents did not enter post-school education or training, and were either employed (three) or not in the labour force, education or training (two).
